gene ontology
spindle pole
spindle
microtubule associated complex
microtubule
cytoplasmic region
site of polarized growth
neuron projection terminus
growth cone
glutamatergic synapse
distal axon
axon part
presynapse
synaptic membrane
presynaptic membrane
postsynaptic specialization
postsynaptic membrane
postsynaptic density
neuron to neuron synapse
neuron spine
intrinsic component of synaptic membrane
integral component of synaptic membrane
dendritic spine
cation channel complex
asymmetric synapse
cell−cell junction
ribosomal subunit
recycling endosome membrane
phagocytic vesicle membrane
phagocytic vesicle
Golgi−associated vesicle membrane
focal adhesion
ficolin−1−rich granule
ER to Golgi transport vesicle membrane
endocytic vesicle membrane
early endosome membrane
cytosolic ribosome
cytosolic part
COPII−coated ER to Golgi transport vesicle
coated vesicle membrane
cell−substrate junction
cell−substrate adherens junction
cell cortex
actin cytoskeleton
